

# ***RAZOR BLADE™***

The Razor Blade... it's one Sharp Scrubber.

**KENT**  
Simple. Clean.

# The Kent Razor Blade™... Big on Features.

## Finally, a rider within reach.

Introducing the Kent Razor Blade™. the rider-scrubber you've been waiting for. Leave it to Kent to completely re-think what an ultra compact riding scrubber can be. The Razor Blade delivers the labor savings of a riding scrubber, without the complexity or the massive price.

Although the Razor Blade is small in stature, it packs all the power and durability you've come to expect from Kent. Its compact size (less than the width of a door) enables it to maneuver in tight spaces, including elevators. That means faster, more thorough cleaning in more areas — and less time spent hand-mopping the few places the Razor Blade can't reach.

The Razor Blade is also the safest and easiest riding scrubber in its class to operate. Kent's exclusive STAR® (Speed on Turns Automatically Reduced) Steering keeps even inexperienced operators in control of the machine, reducing the risk of injury or damage. And, the Razor Blade's ECO solution system ensures that even a rookie can perform a full hour's worth of continuous productivity without dumping or filling solution.

The Kent Razor Blade, it's one sharp scrubber.

**KENT**  
Simple. Clean.

**Onboard battery charger means there is no charger to lose**

**STAR® System controls speed through turns and reduces risk**

**No tools needed to change brushes**

*One-Touch™, user-friendly control panel*

*Tool-free adjustable side skirts*

**20 gallon ECO System  
precisely dispenses  
solution continuously  
for one hour per tank**

**One-Touch™, user-friendly  
control panel**

**Heavy-duty, breakaway  
squeegee with tool-free  
blade rotation and  
replacement**

**The Razor Blade**  
is perfect for...

- Schools and Childcare
- Hospitality
