Xtreme Recovery Squeegee System is standard on Speed Scrub™ 2001 models through 3301 models.

FaST™ patent pending technology uses Engineered Self-Collapsing Foam to more effectively deliver cleaning detergent to soils, while significantly reducing water use.

Compact, conveniently located, and easily installed, the FaST-PAK™ cartridge accurately meters FaST™ concentrate for optimum cleaning performance.

One FaST-Pak™ cartridge allows the operator to scrub up to 1-million sq. ft.

With FaST™, the days of inaccurate, wasteful and messy detergent mixing are over.
