

## Clean Track® S16 & L18

### Self Contained Portable Extractors

- **CRI-SOA certification** ensures that Clean Track® extractors meet the highest standards of soil and water removal
- **Laminar flow technology** guarantees enhanced water pick-up for faster drying times and mold prevention
- **Single spray jet technology** ensures consistent coverage without overlaps, streaking or clogging
- **Tools-free vacuum shoe and brush removal** provide user-friendly maintenance and quick equipment storage
- Optional **Hard Floor Kit** converts the Clean Track® into an auto scrubber for hard floor scrubbing

**Clarke Clean Track® S16 & L18  
self-contained portable extractors  
provide easy, flexible operation to  
satisfy carpet care requirements!**

Clean Track® L18 flip handle allows pull or push operation.

Trusted. Reliable. Efficient.

# Clarke®

# Compact, portable design and innovative extractor capabilities with minimal maintenance ensure superior cleaning results.

## Flexible Design

Get cleaner carpets and enhance facility appearance with the Clarke Clean Track® S16 and L18 self-contained portable extractors. A compact, easily-maneuverable design, combined with a 16 or 18 inch cleaning path, allows you to tackle cleaning challenges ranging from (commercial) office spaces, libraries, and hotel rooms, just to name a few. An optional hard floor kit extends the Clean Track's application flexibility, quickly converting it to a hard surface cleaner for tiled and grouted floors. With simple tank filling, tools-free brush and vacuum shoe removal and intuitive controls, Clean Track extractors provide an unprecedented easy-to-use cleaning solution.

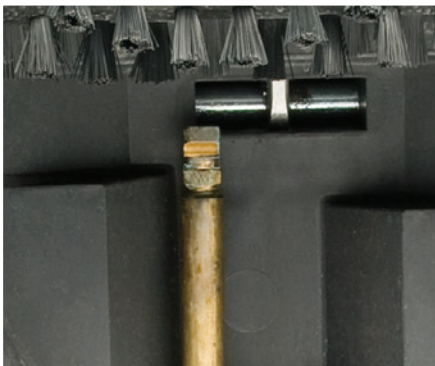

## Deep Cleaning with Minimal Dry Time

The Clean Track extractors ensure increased productivity with industry-leading performance capabilities. Single deflector spray jet technology provides even, consistent water and chemical coverage across the cleaning path, while an aero-dynamically designed vacuum shoe removes excess water for faster carpet drying times. By eliminating unwanted solution streaks and minimizing drying time, Clean Track allows quicker room turnover and occupancy. Laminar flow technology reduces turbulence and increases water pick-up, ensuring your carpets are left with a cleaner, dryer and more appealing finish.

## Enhanced Productivity

Equipped with a larger tank capacity, wider cleaning path and Multi-Position Flip Handle, the Clean Track L18 delivers superior productivity with dual method cleaning. Position the adjustable handle in pull-back mode for edge or detailed extraction in small areas. Then, in an instant, flip the handle over to the front of the machine to convert the L18 into a walk-behind extractor to easily extract hallways and large carpeted areas, increasing cleaning productivity.

## Flexible, efficient extracting performance!

### Jet technology

Single deflector jet technology ensures even coverage without overlaps or streaking.

### Control panel

Intuitive controls reduce training, resulting in consistent cleaning and increased productivity.

### User-friendly maintenance

Tool-free removal of brush and vacuum shoe provides easy cleanup and maintenance.

# Clean Track® S16 & L18

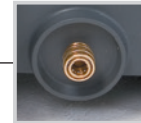

Ergonomic, adjustable handle

Large opening to the recovery tank for easy cleaning

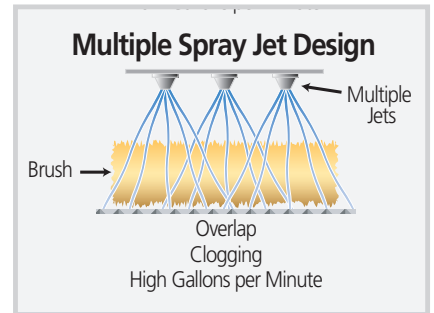

Fill the Clean Track® S16 without removing the recovery tank

7 gallon (S16) or 11 gallon (L18) solution tanks

Tools-free removal of brush and vacuum shoe

Quick connect for optional spotting upholstery tool or wand

Large 10 inch non-marking wheels

CRI-SOA certification protects and maintains a facility's carpet life

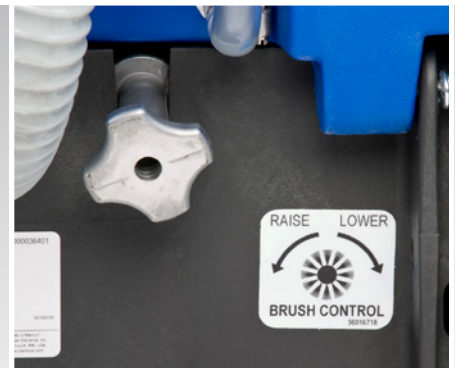

### Hard floor tool kit

Optional Hard Floor Kit converts the Clean Track® into an auto scrubber to quickly tackle hard floor scrubbing challenges. Brushes are available separately.

### Fold-over handle

Ergonomic, adjustable handle ensures complete operator comfort.

### Height adjustment knob

Fully-variable brush height adjustment allows operators to easily match cleaning requirements.

## Applications

- Schools and Universities
- Commercial Offices
- Retail and Malls
- Hotels and Resorts
- Healthcare Facilities
- Government Facilities
- Restaurants
- Kitchens and Restrooms
- Lobbies
- Outdoor Pools

## “Green” benefits

- CRI-SOA certification for carpet extraction
- Meets requirements for LEED certification and GS-42

## Safety features

- Ergonomically, adjustable handle
- Clear line of sight

## Accessories

- Hard floor kit converts Clean Track® extractors into automatic hard floor scrubbers (56265150)
- 16 inch nylon hard floor brush for lighter scrubbing (56265175)
- 16 inch MidGrit™ 240 hard floor brush for aggressive scrubbing (56265176)
- 18 inch nylon hard floor brush for lighter scrubbing (56265177)
- 18 inch MidGrit™ 240 hard floor brush for aggressive scrubbing (56265178)

- Light duty soft floor wand (56262209)
- Heavy duty soft floor wand (56263305)
- Hand tool for upholstery (56220070)
- Hand tool general purpose (56220109)
