OPERATION

86372480

RADIUS 300

01) Unplug the on-board battery charger from the outlet.

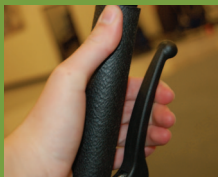

02) Turn the machine on.

03) Adjust main broom. Make sure the numbers on each of the two yellow levers match. Towards (+) increases pressure and towards (-) decreases pressure.

04) Lower and adjust side broom. Towards (+) increases pressure; towards (-) decreases pressure.

05) Push the lever on the operator's left to move the machine.

06) Push the lever on operator's right to lift debris skirt.

07) During wet applications, open side vent to protect the filter.
