

# 1240/1260

## Self Contained Carpet Extractors

Square, lift-off solution and recovery covers are easy to use.

Redesigned brush scrub deck with larger motor, stiffer brush and dual spray nozzles provide outstanding cleaning performance.

Ergonomic handle with trigger solution control allows for comfortable operation.

The brush pressure meter ensures proper brush height setting.

The sleek new design of the Tennant 1240 and 1260 self-contained carpet extractors is more than just looks. The brush deck has been redesigned to ensure uniform delivery of cleaning solution across the cleaning path, and incorporates a new brush that allows for just the right amount of agitation to remove tough soil without causing damage. The ergonomic handle grip and fingertip solution controls minimize hand movement during operation and allow for hours of comfortable operation. An on-board brush meter allows the operator to set and monitor optimal brush height setting.

Constructed of durable polyethylene that resists dents and cracks, the 1240 and 1260 extractors are built to last and can absorb the abuse of everyday extracting.

The maneuverability of the Model 1240 and 1260 make them a perfect match for cleaning in confined areas like classrooms, office buildings, hospitals, restaurants as well as larger open areas.

Model Number	1240/1260
Model type	Pull-back Extractor
Brush motor	.25 hp
Vacuum shoe width	16 in. and 20 in.
Brush width	13.5 in. and 17.5
Vacuum motor	1.8 hp
Sealed waterlift	137 in.
Recovery tank capacity	14.5 gal.
Solution pump pressure	100 lb.
Solution capacity	10 gal.
Solution flow	1 gpm
