Carpet Extractors

1000 Series Carpet Extractors

Clean Carpet Better with Tennant

Unique clamshell design of the 1120/1160 models allows easy access to major working components.

The convenient lift-off tank on the 1200 makes emptying recovered solution easy.

Tennant offers a wide range of carpet extractors that expertly clean carpet, upholstery, or any type of soft floor. The 1000 Series of carpet extractors is designed to clean productively and can be customized with accessories to fit your exact cleaning needs. From spot extraction to deep cleaning wide areas, Tennant has the right machine for you.

Extractors Built to Last

Tennant extractors are built with heavy duty rotationally molded polyethylene plastic that won't rust, corrode, dent, chip or crack. Each machine is hand crafted and tested to ensure optimal performance.

Powerful Performance

The 1000 Series of high performance extractors are engineered to clean even the dirtiest carpets or upholstery under any cleaning condition. Tennant extractors employ heavy duty vacuum and brush motors designed to get carpet clean.

Simple Operation

Easy to understand controls and ergonomic design make the 1000 series simple to operate for even the first time user.

What's more, the lightweight design and portability of these extractors allow the operator to clean practically anywhere.

Variety of Models

Tennant offers several type of models to choose from. Your Tennant representative will assist you in choosing the model to fit your need. Tennant 1000 series models include a portable spot extractor, pull-back and forward motion self contained models, canister units as well as an automatic wide area carpet cleaner for high productivity.

Accessories for All Your Needs

No Tennant extractor would be complete without accessories. Each unit has optional accessories that will help you get the job done right the first time—saving time and labor. From a transport cart and wand attachment to a complete accessory package, Tennant will find the right combination to suite your exact needs.

So remember the Tennant 1000 Series when it comes to any of your soft floor or upholstery cleaning needs.

The 1000 extractor is great for spot and upholstery cleaning and auto detailing. This extractor features an 8 L capacity, 2 bar, and a lightweight body design for portability. Optional accessories for this unit include transport cart, wand and hand tool.

The compact 1200 extractor is lightweight, maneuverable and perfect for cleaning small areas. This unit features a self adjusting brush, lift-off tank and a folding handle design for convenient storage and easy transport.

The 1120/1160 canister models are great for cleaning carpet almost anywhere. Adjustable solution pressure makes the 1160 model the right choice for carpets that require deep cleaning. Both models feature large rear wheels for easy transport.

Patented Bladder Tank

The unique bladder tank expands and contracts with solution level for greater capacity, ease of use and increased productivity.

Rugged Housing

Extractor housing is made of durable lightweight rotationally molded polyethylene that won't rust, corrode, dent, chip or crack.

Adjustment Knob

Adjustable brush height adjustment knob allows the operator to adjust for various carpet depths.

Powerful Vac Motor

The powerful 3-stage vacuum motor retrieves solution and soil while leaving carpet nearly dry.

Large Rear Wheels

Extra-large rear non-marking wheels allow for smooth pullback operation and easy transport up or down stairways.

Cleaning Brush

The extractor's powerful nylon cleaning brush agitates and dislodges stubborn dirt.

Removable Spray Jets

Twist out spray jets are easily removed without tools for routine cleaning.

The 1240/1260 pull back models are known for their portability and easy of use and can clean medium to large size areas productively. These units feature large rear wheels, collapsible bladder tank for maximizing capacity and a drop down drain hose for easy emptying.

The Model 1280 extractor's push operation lets you clean carpet faster than a traditional "pull back" extractor. With the operator walking forward, the 1280 cleans an average of 325 m² of carpet per hour—productivity that no extractor in its class can match.
(Note: For use on commercial grade carpets)

Clean large open areas with the 1550 automatic extractor. This battery operated model features light or restorative extraction modes, large solution and recovery capacities, a wide cleaning path and long run times per charge for efficient cleaning.
