Optional 22 lb. weights for added down pressure

Attached vacuum for dust control
(Item# DCORB1420)

Dual lever on/off safety switch for left or right hand operation

The Powr² orbital floor machine takes floor care in a whole new direction. Unlike traditional “side-swing” machines, the straightforward motion of an orbital floor machine is easier to operate and requires little training. Its rectangular design takes the difficult out of edge and detail work and a variety of pads allows users to clean, prep floors, dry strip finish and buff with a single machine.

Item# DCORB1420
(Dust-Control model)
