PBU Series 21 & 27

Propane Powered Burnishers

Advance

FACT SHEET

TYPICAL APPLICATIONS INCLUDE

- Large Retail Stores
- Shopping Malls
- Supermarkets
- Government Facilities
- Educational Facilities
- Airports

MACHINE OPTIONS INCLUDE

- Dust-control
- Automatic shut-down
- Centrifugal clutches
- Catalytic mufflers

The new Advance PBU series propane-powered burnishers are loaded with performance features to make your floors shine in less time.

The PBU series provides the fastest high-gloss burnishing available. The Advance PBU 21 has a 21 inch (53 cm) pad size and can burnish up to 25,000 square feet (2,322 m²) per hour, while the PBU 27 model offers a larger 27 inch (68 cm) pad capable of burnishing up to 33,000 square feet (3,066 m²) per hour. Simple controls ensure your operators won't be slowed down with machine adjustments — just start it and go.

Powerful 603cc Twin-V engines provide the torque to drive the pad at a high rpm that produces a sparkling shine. Select models offer catalytic mufflers, a heavy-duty felt seal on the shroud that provides the best dust control on the market and CARB Gard™, a device that shuts off the engine if it detects harmful emission levels.

Easy pad changing, low maintenance and rugged dependability round out the benefits of choosing the new Advance PBU series of propane-powered burnishers.

CARB Gard™ emissions control will stop an engine with high exhaust emissions. Notification LED is in plain view to the operator.

The operator throttle is conveniently located on the handle.

Easy access to change pads.

80% safety fill type propane tank. All propane system components are UL approved.

Cushion handle for operator comfort

Adjustable handle for operator comfort

Fuel lock off & check valve for added safety

Simple oil drain for easy maintenance

Easy change tank

Heavy duty, permanently lubricated, sealed bearings

Rugged one piece cast deck & frame - powder coat finish resists damage

Toe kick design for under counter access

Wall guard bumper protects against damage

Two-year warranty

Defining Cleaning Innovation…

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.

- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.

- Maintain peak performance with Nilfisk Genuine OEM Parts.
